SUBJECT: Orientation Tour of AEC Facilities, Nevada Test Site

2. Since the above people will tour certain DASA installations at NTS on 9 and 10 March we feel that observance of other activities at NTS would be valuable. Our particular interests would involve test preparations presently underway as well as observing representative areas at past test sites, involving both verticle and horizontal emplacements. Arrangements for the tour of the DASA installations are being made by [] of DASA.

3. Please contact [] for any further information you may require.
